Basecamp

Adobe Photoshop

### EDUCATION

Actualize, Chicago – Remote  
Full Stack Development

UCLA, Los Angeles  
Major - Classics, Minor – CS

West LA College, Culver City  
Information Technology

### PROJECTS

Reel Me In, Hackathon Project – BrickHack 7, Feb 20-21

[github.com/ambar-khan/reel\\_me\\_in](https://github.com/ambar-khan/reel_me_in)

- Worked in a diverse group of 4 to create a “dating app” to match a person with their perfect movie depending on mood by integrating TMDb API and enabling a multi-query search through an axios request.

- Developed a SPA front-end utilizing Vue.js and Javascript and styled with HTML/CSS.

ReadBetween

[nameless-spire-46450.herokuapp.com/](https://nameless-spire-46450.herokuapp.com/)

- Personally, built a Virtual Book Club web app that allows users to sign up for account, search upcoming virtual book discussion events, leave comments, register for events, create their own events and easily pull information on the book they are discussing through the integration of the Google Books API.

- Languages and Frameworks: Ruby, Rails, PostgreSQL, Vue.js, JavaScript, HTML/CSS, Bootstrap. Authentication with JSON web token and deployment with Heroku.

Cascadia

[cascadiahospitality.com](https://cascadiahospitality.com)

- Designed and built a multi-page responsive website using Webflow.

- Leveraged HTML, CSS, and Javascript languages to drive design, build, test and deployment of custom website solution in line with client’s needs.

### EXPERIENCE

Jupiter Hotel, Contract Website Manager

Jan 2021 – Present

- Working closely with management to update and manage content on Wordpress site for Jupiterhotel.com and ensure website functionality, monitor assets and report website function.

Actualize, Full Stack Web Developer

Sep 2020 – Jan 2021

- Bootcamp: Learned fundamentals and best practices in full-stack web development in areas of project architecture, backend, frontend, and how to effectively self-teach new technologies.

- Generated technical requirements and determined the most effective solutions, created wireframes, designed schema, and researched outside resources

- Built and tested the backend, incorporating external APIs.

- Created pages and RESTful routes, made web requests to retrieve data, formatted and styled results, incorporated libraries and themes.

Lutheran Community Services NW, Benefits Manager

April 2018 – PRESENT

- Aid the development, implementation and administration of current and revised benefit programs, policies and procedures to be more equitable, competitive, and responsive to the goals and mission of LCSNW.

- Overhaul Benefit process to be completely digital by designing and configuring an enrollment module on our HRIS, increasing productivity, efficiency, cost savings and reducing paper waste, and risk for HIPPA violations.
